

Amit Kumar Sahu

Senior Data Engineer

Bengaluru, India | +91 9916681930 | nikuamit.sahu256@gmail.com | linkedin.com/in/aks1993 | nikuamit.github.io

SUMMARY

Senior Data Engineer with 9+ years building enterprise-grade data lakes, lakehouse platforms, and semantic analytics layers across pharma (Eli Lilly, 200K+ clinical assets) and SaaS (Kenko AI, 500+ multi-tenant clients). Expert in Python, PySpark, SQL, full AWS data stack, Airflow orchestration, and Cube Cloud LDM design. Consistent track record of 40–60% improvement in pipeline efficiency, data quality, and cost.

EXPERIENCE

Senior Data Engineer

Feb 2026 – Apr 2026

Kenko AI · SaaS Fitness Tech · Bengaluru

- Architected AWS Data Lakehouse for 500+ fitness studio clients via DMS CDC, S3 Bronze, Apache Iceberg Silver (S3 Tables), and Athena Gold — cut query latency 45%, raised SLA from 70% to 98%.
- Designed Cube Cloud LDM with 18 cubes, 11 pre-aggregated views, and 58 KPIs; JWT-based multi-tenant RLS for 500+ operators.
- Built 9-check DQ framework with SNS alerting — cut data incidents 60%, raised confidence 82% to 97%.
- Delivered 20-table Gold analytics layer replacing GoodData — cut BI licensing costs 35%.

Engineer II – Software Configuration and Development

Feb 2021 – May 2024

Eli Lilly and Company · Pharma · Bengaluru

- Standardised 20+ reusable Data Products and DWS APIs using PySpark and Airflow across 5+ teams — cut incident response time 40%.
- Migrated 5+ TB CTMS clinical data from IMPACT to Veeva Vault — accelerated onboarding 60% across 6+ clinical trial projects.
- Engineered Axon Data Catalog for 200K+ clinical assets — improved discoverability 50%, validation efficiency 30%.
- Won Lilly Global Ideas and Innovation Award for LillyTV — R&D; platform scaled to 1,500+ employees.

Data Engineer

Aug 2019 – Jun 2020

AspireNXT Pvt. Ltd. · Consulting · Bengaluru

- Led 5-member team delivering AWS Data Lake pipelines across finance, industrial IoT, and healthcare — delivery velocity +30%.
- Deployed secure AWS Data Lake migrating 10+ TB — latency –40%, infrastructure costs –25%.

Senior Software Engineer

Jan 2019 – Jul 2019

SpanIdea Systems · IoT · Bengaluru

- Designed Span Park smart parking using Python, Raspberry Pi, PostgreSQL, Azure IoT Hub — parking search time –50%.
- Built real-time MQTT sensor data processor — device-cloud responsiveness +40%.

Senior Systems Engineer

Aug 2015 – Dec 2018

Infosys Limited · Client: Daimler AG · Bengaluru

- Automated critical ETL pipelines — production downtime –20%, reusable framework across 12+ projects cut manual effort 30%.

TECHNICAL SKILLS

Languages & Databases: Python, PySpark, SQL, Bash, PostgreSQL, MySQL, Oracle, DynamoDB

Cloud: AWS (S3, Glue, DMS, Lambda, Redshift, RDS, Athena, Kinesis, Step Functions, Lake Formation, Bedrock), Azure IoT Hub

Data Engineering: Apache Iceberg, Delta Lake, Databricks, Apache Airflow, DBT

Semantic Layer & BI: Cube Cloud (LDM, cubes, views, pre-aggregations, multi-tenant RLS, JWT auth), GoodData, QuickSight

AI & Dev Tools: Claude, ChatGPT, GitHub Copilot, Cursor, Windsurf, Docker, GitHub, Linux, VS Code

Workflow: Linear, Jira, Confluence, Agile Scrum, Git, DevSecOps

EDUCATION

B.Tech, Computer Science & Engineering

Veer Surendra Sai University of Technology (VSSUT), Burla, Odisha · 2011–2015

- Founded ENIGMA, the university coding club. ACM-ICPC World Semifinalist 2013 (IIT Kharagpur Regionals, Asia).

AISSCE (Class XII)

Jawahar Navodaya Vidyalaya, Sarang, Dhenkanal, Odisha · 2010
